

## MINI TUMBLER BENCH TYPE BARREL FINISHING MACHINES

### MT SERIES

MT-2

MT-1

Most usable and versatile bench-type portable finisher on the market. Built with the same heavy-duty construction as the larger tumbling machines – PLUS the added convenience of variable speed, compact size and portability. It readily handles heavy steel ball burnishing, as well as small and delicate instruments and lapidary work. Removable barrels provide added convenience. Fixed shaft on barrel slides easily in or out of hollow drive shaft.

#### Machine

Cabinet is made of steel, welded construction. Totally enclosed gear reducer drive, drive belt and pulleys. Ventilation louvers. Finished in enamel paint. Drive: 1/12 hp split phase 100-volt AC motor with 8-ft cord., variable speed 24-52 rpm, start-stop switch.

#### Size

10" wide, 12" deep, 10" high. Net weight 25lbs. including barrel.

#### Barrels

Model MT-1V has 8 sided conical barrel, measuring 4" diam. At open end, 7" high and 9" diam. Base. You could always choose a 6 sided closed barrel, 9" in diam. And 3-1/8" wide. Both lined with "No-seam" vinyl plastic. Additional barrels available.
